This Report China Open Source Report 2020 is the evidence about the glowing Open source scene in China. That glow in 2020 means all aspects, include more popular, higher technology, more transparency, community, and business. All projects got more diverse, and also a higher level.

Some projects you can see in Gitee, these IoT and embedded software categories, China will lead the others in the world.
Also, non-technology topics are memorable. Such as community governance, own a license for Chinese society, glow the official community, and investment from VC.

KaiYuanShe(China Open Source Alliance) is the international community, but for the Chinese speaker. I`m an official member of Kaiyuanshe from 2021. KaiYuanShe will contribute to the world.

China Open Source report In Chinese and Japanese

この「中国开源年度报告」は中国オープンソースコミュニティが、制度、技術、,コミュニティ、ビジネスのどの方面でも、2020年の1年間で大きく成長し、今後さらなる急成長が見込めることの証明です。2019年のものと比べ、プロジェクトはさらに多様でハイレベルになりました。そのなかにはGiteeに多く見られる組み込み系など、中国が世界に先駆ける可能性を秘めたものもあります。

また、オープンソースコミュニティのガバナンスについても進化し、中国国内で通用しやすい独自のオープンソースライセンスや公的なコミュニティが拡大し、投資についても伸びているのも、注目すべき傾向です。

様々な国からの参加者を集める、中国を代表するオープンソース・アライアンス開源社ですが、公用語が中国語のため、基本的に中国語圏のメンバーのみで運営されていました。2021年度から、日本人の僕も正式メンバーとなりました。2021年度の中国オープンソースは、更に世界への貢献を大きくしていくでしょう
